**An offering from  
SANSKRITI SHAALA, BENGALURU**

Sanskriti Shaala is a new age school that teaches the important aspects of Bharatiya culture in a modern format. We want to help Indians (children and adults) learn, understand, appreciate, and practice key aspects of Indian culture.

Our children are our future and the future of this great nation, and it is important that our children should understand, love, and live our culture. Bhartiya culture is a living culture built on many different traditions that look very different but have a common thread of "Indianness" that binds them.

It will be our endeavour to evoke a sense of wonder, excitement, and fascination with our culture in our children. Our culture has been nourished by the great thoughts and deeds of our ancestors over thousands of years. We want to pay tribute to them and try to bring some element of this ancient culture into our modern day lives.

Please note that there may be slight variations in the actual occurrence of the various mini classes and workshops listed in the flyer, but the overall intent of the Sanskriti Summer Camp will remain the same. We want to provide your children a cultural immersion that will create a longing in them to explore more about our culture and traditions so that it lives on.

“

Hi before mentioning how my kid Sanvika enjoyed this program, I want to share a small incident. Yesterday after coming from Sanskritishaala, my kid asked do you know what is dead food? As my answer was no, so she took out the ketchup bottle and explained that it has only 20% tomato puree and remaining all are chemical, so it s dead food and we should throw it. I was like speechless that time. Even she continued to telling me that in my birthday , don't sing Happy Birthday, sing the same in sanskriti and showed me the same from the book given to her. So it not just, she enjoyed along with she has learned a lot in that short span of time. Really commendable job from you guys. Thanks a lot.

- Sharat

“

This is such a lovely gesture from the parents. And a great contribution from you to the society . I am very happy to be associated with a person like you who is working hard for the uplifting of the downtrodden and also contributing to the overall development of the kids of our society in general. God bless you in your endeavour and keep up your spirit 🌻🌻🌻🌻 .Will get back asap.

“

I have always been thinking of having a place where the kids are given Saatvik food, teaching them our culture and knowledge that we have in our literature.. keep them connected with the nature..!! I wish I was part of this program

- Priyanka

“

You are making a real difference in kids' lives. We fondly remember the few teachers that have shaped our lives though we have may have had but brief contact with him. I wish we had more of them in India. You are one such and in an uncommon field. Awesome!!!
